

Tougher than the steel they treat, LS Blasters are built to clean pipe to the most demanding specifications.

**CUSTOMED
ENGINEERED
SOLUTIONS!**

Built to accommodate any sizes.

Easy to use controls. Optional upgrade to HMI/PLC controls.

Designed for streamline efficiency, to move pipes through and transfer where needed. We also do ID Pipe Blasters.

PROCESSES**

FEATURES:

- Heavy-duty construction
- Digital amperage meter for shot load control
- All electrical components are CSA, UL, and/or CE registered
- Cycle timer to control the duration of the cycle
- Better coverage and thorough cleaning
- Standard 220V/3PH/60HZ or 440V/3PH/60HZ
- Sizes ranging from 0.5" - 126" diameter
- Batch or continuous flow

OPTIONS:

- Extended machine life upgrades
- Additional impellers
- Increased weight capacity
- HEPA filtration
- Special handling and load tables
- PLC/HMI controls
- Fused disconnect
- Dust Collection / Ducting
- VFD's (Variable Frequency Drives)
- Shot peening design

Before

After

Material handling Conveyors are custom built for secure and efficient pipe processing.
