

"THE BRUTE" STRUCTURAL BLASTER

Designed around your needs for surface prep on large structural steel components like I-beams, columns, girders, and fabricated steel structures.

Parts are carried on conveyor rollers throughout. Optional parts blow off to help recycle shot for and eliminating waste.

Ask about "H" formation on beam processing.

ENGINEERED
SOLUTIONS!

The blaster is designed for long life as well with the heavy-duty manganese blast cabinet and easily replaceable manganese wear liners.

LS SureShot™ wheel throws a medium volume of shot at a high velocity to achieve the desired blast finish.
