

The 11B Tumble Blaster removes rust, dust, dirt, and other contaminants with a full 360 degree blast.

## FEATURES:

- Heavy-duty steel construction
- 0.25" manganese liners in all direct shot patterns
- Shot wheel is lined with replaceable wear resistant plates
- Double-walled bearing protection with seal
- Full load of abrasive media (S-110 to S-330)
- Large air intake for cooler operation and efficient dust collection
- NEMA-12 enclosure (all electrical components are UL & CSA)
- Door safety switch to shut down machine when in use
- Basket drive motor
- Standard cycle timer
- Standard ammeter for shot load indication

Wire mesh baskets can hold multiple and a variety of parts in one blast. The part on part contact helps with the cleaning process.

Constructed with heavy-duty steel construction. The door and cabinet are lined with replaceable wear resistant plates for long time use.

## OPTIONS:

- Fixture basket
- Removable basket
- Small parts basket
- Manganese cabinet for long life
- Dust collector upgrade
- Motor upgrades
- Heavy basket screens
- Voltages
  - 230V/3PH/50HZ
  - 380V/3PH/50HZ
  - 440V/3PH/60HZ
  - 575V/3PH/60HZ

The LS TurboShot™ blast wheel uses high volume, bi-directional, medium velocity to efficiently and effectively disperse shot media for a 360 degree blast.
