

LS Industries BFCLP-XL Flow Through Cylinder blaster is designed to blast for welding gas and other high pressure gas cylinders quickly and efficiently.

FEATURES:

- All steel frame and cabinet construction
- Manganese blast cabinet with replaceable manganese alloy cabinet liners
- NEMA 12 electrical enclosures
- UL and CSA compliant
- Ammeters to monitor abrasive load level for each wheel
- Two LS SureShot™ direct drive overhead blast wheels
- Sealed impeller bearing

The impeller system drops abrasive through the control cage in order for the blast wheels to propel the abrasive. Full load of steel shot abrasive media is included.

Access doors allow entry to the blast cabinet for inspection and maintenance.

OPTIONS:

- Load table/conveyor
- Unload table/conveyor
- Automatic indexers
- Spark arrestor
- Rotary screen separator

CATEGORY
