

LS Industries CTB is designed to remove rust, dust, dirt, and other contaminants off chlorine tanks and other large cylinders.

FEATURES:

- Pneumatic clam-shell style door
- Safety door lock in the up position
- Air operated cylinder lift and ejector
- Replaceable hardened alloy wear plate liner
- Rubber door seal eliminates shot escape from the machine
- Digital ammeter to monitor abrasive level within the blaster during operation
- Full load of steel shot abrasive media is included
- Sealed bearings on blast wheels for superior resistance to abrasive impingement

The manganese alloy roller shafts rotates the tank while inside the machine to get an all angle view.

The stoppers help the cylinders from moving inside the machine to ensure a better clean.

CATEGORY

DETAILS

Work Envelope (dia. x l)	30" x 81"
Overall Dimensions (h x l x w)	120" x 90" x 138"
HP of Blast Wheels	4 - 10HP
Dust Collector	Included
Electrical	440V/3PH/60HZ, 62 amps

OPTIONS:

- Sound reduction package
- Deflagration panels for dust collector
- Fire detection and suppression system with CO² monitor
- Spark arrestor
- Small cylinder basket
- Urethane caps to protect valve
- Inspection light
- Cylinder counter

Easy to use controls and adjustable cycle times don't require extensive training.
