

Our 48x24 Structural Blaster is designed to remove rust, dust, dirt, and other contaminants off I-beams.

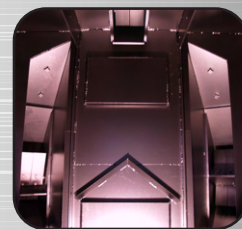

FEATURES:

- Replaceable manganese blast cabinet
- Shot adder
- Heavy duty manganese rollers
- Digital amp meters

OPTIONS:

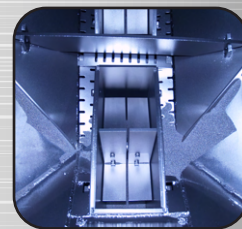

- Parts blow off
- Maintenance/Service platform
- Full upper air wash
- Elevator jam auto shutdown
- Magnetic shut valves
- Parts sensor
- Shot hopper with high/low shot sensor
- Side air wash
- HMI/PLC touchscreen
- Extension conveyors
- VFD (Variable Frequency Drives)

The blaster is designed for long life as well with the heavy-duty manganese blast cabinet and easily replaceable manganese wear liners.

Parts are carried on conveyor rollers throughout. Parts blow off to help recycle shot for next time use.

LS SureShot™ wheel throws a medium volume of shot at a high velocity to achieve the desired blast finish.
